When will You Save If
you don't Save NOW?

Though your salary or income
will no doubt increase, so will
your expenses—and many find
that the latter more than keep
pace with the former. Now is the time to start a Reserve Fund
—and the Savings Department of the Union Bank of Canada
is the place to keep it.

Deposit the extra you have on hand now—you can open an
account with any sum, down to one dollar—and draw interest on it.

Police Court

An interesting case was brought
before Justice of the Peace Hall on
Monday when J. M. Cairnes made
complaint against C. W. Blue, of
Berons for destruction of his fence,
to which the latter entered a plea
of not guilty. In his evidence Mr.
Cairnes described the nature of the
fence stating that just pass where
the fence was taken down the wire
had broken and was down for a
distance of 50 rods. Witness J. H.
Cairnes stated that on May 15th a
car driven by the defendant stopped
at his father's farm and the
occupants got out and took down
fence. He told them to go back
and shored them the road, for
which they gave him, insolence.
Roy Cairnes, another witness, stated
that the car had been through his
place and that he saw the car pass
leaving it down. Drive away
leaving it down.

In his defence, C. W. Blue said
that he had been over the country
before and was travelling an old
trail. Coming into an open pasture
they found a fence and his
partner untaped and held down
while passed over. He would have
put it up again but was told to
leave it down. He would not go

back to the road as he did not have
enough gas and complainant would
not give him any. That people
should not fence off old trails
without putting up notice boards. The
other occupants of the car also gave
their testimony.

In further evidence Mr. Cairnes
drew a diagram of the fencing and
said that the trail had been fenced
off for two years and the party he
driver through an open gate that
his son had driven the cattle water
and that the graded road had been
left to pass through his field.

In passing judgement Justice
Hall pointed out mistakes made by
defendant and that under circum-
stances he would only assess him
the costs of the court amounting to
\$9.00. This was paid under protest
and the case will be appealed.

The Mossy Bank Red Cross will
at Mrs A. Lanier's on Tuesday.

Rev R. R. Haight is conducting
services at Carmangay this week.

The latest old homesteader to
come back is John Rosenberg, who
arrived on Monday. Leaving here
in May 1915, Mr. Rosenberg has
traveled twenty-two states of the
Union.

Agatha Road to be Finished

Steve Clarkson and Councillors
Whitlock and Cleave, of the Municipal
District of Sunny, made a
tour of inspection on the Agatha
road this week. Work will be
started on this road as soon as the
contract is let. The council have
figured an expenditure of between
\$500 and \$1000 and intend to have
a good job done. This will be a
good thing for the farmers coming
into Alderson and a benefit to the
town and the community will ap-
preciate the attention given their
wants by the council and the dis-
patch with which it was handled.

An extra piece of work will be
required between the government
grade and the municipality which
our member, Capt. Fingle, has prom-
ised assistance with.

Mr. Singely, of Calgary, whose
business is at the front with the
Canadian Army Dental Corps, is
visiting at the home of Mr and Mrs
L. Nelson.

C. Belton, of Hartford Wis., a
nephew to Mrs Hegy and Mr Scollard,
is expected tonight and will
stay the summer.

A very enjoyable social gathering
was held yesterday in the nature of
a lawn social. A large number of
children was given a real good time
in the afternoon with races and
games. Quite a few cars went out
from town in the evening and a
fine program of songs and recita-
tions brought the days enjoyment
to an end. Songs were given by
Mrs Teraray, the Misses Clara
Johnson and Olson; recitations by
Glen Dahl; Harold Johnson, Clif-
ford Daniels, R. Thornton, and
Miss Hall; musical numbers by
Robert and John Gish. Lieut.
Sindair, of the Salvation Army and
Rev Steele each gave a short address
not forgetting Frank McDiarmid.
H. W. Johnson acting as chairman
created quite a little fun during the
evening. The days enjoyment was
arranged by Mr and Mrs J. P. Pih-
lin, in the interest of the work of
the Salvation Army. Meetings are
held every Sunday afternoon com-
mencing at 2 p.m. to which all are
invited. On June 23rd there will
be special meetings.

Jack Johnson was in Calgary in
this week.

A telegram came last night for
Mrs Walter Dodd to say that her
father had been killed in an acci-
dent in Idaho.

Prussia Puffed Up

mans are the Salt of the
Earth

The truth is, that events in Germany have filled the Prussian Junkers with a sense of impending doom. Since the revolution of July 19, 1932, the Junkers have been attending the Reichstag meetings of the German Agrarian League, the only political organization of the Junkers. At the extent of this pride, there was the extent of their power. They were the only group in Prussia free from the conviction that the Junkers were the salt of the earth. A few extracts from the speeches may be of interest:

"As long as the enemy, since the morning of July 19, 1932, is not supreme, we shall have no peace."

"Germany's future can only be secured by the force of money and a mighty army."

"What we have lacked hitherto is leadership."

"One cannot get away from the conviction that God must have been angry with the Junkers. I am a manager (Beitragmann-Hollweg) imperial chamberlain."

"Only fools believe in a reconciliation of the peoples."

"The Junkers are not out of Germany who sit up bitter feeling against Hindenburg and Ludendorff."

... anxious count that of course the bur-
den would be shifted on the enemy if
the military and political situation

The Value of an Egg

The pound of Egg Equal to Two "Pounds of Meat."

An egg, composed of three parts—the shell, the yolk and the white, in relative weights of the yolk being 18 per cent, the white 55 per cent, 6042; yolk, 28.95. One-half pound of eggs is equal to one pound of meat raised at best as only one-third of the weight of the egg is pound of eggs will be equal to two pounds of meat. A fresh egg is composed of three natural qualities in perfection and its component parts are as follows: The yolk is as soon as laid. The moisture is contained in the yolk and the ducts of the shell, and air is absorbed. The vitally decaying grade is the most fertile. The process is hastened; finally death occurs. The process of decay may be kept apparently fresh for a short time by rubbing the shell and the pores of the shell hermetically sealed by rubbing them with a dry egg. The egg is then placed in boiling water. Sterile eggs, if the shell has not been broken, and no support of life are present, but the yolk has not been broken, will keep longer, and do not putrefy; but the egg, if composed entirely eggs are except by incubation.

Many Applications for Share in Distribution by British Government

So farmers were applications from numbers in Western Canada for the 1900 census. The census was massed distributed in the western provinces and the census takers were exhausted in one day. In distributing the seed agents of the British Columbia government, the suitability of conditions in different parts of the province was being ascertained. The census takers were applying to produce at least one bushel of seed per acre. The census takers were from Ladlowford, Japan and Vancouver. Professor Bracken, professor of agriculture, was in charge of the census takers. He was in charge of the census takers. In his opinion, the census takers were not doing as well as they should be. The census takers were brought in by the military authorities."
